Have you had enough of this yet?

Honestly, no. I could keep going... I actually have some fun with this project, not even lying. Though... I've had more than enough of the circumstances surrounding this final part of the project.

The thing I've had enough of is writing things in LaTeX.

10 LAB A

How well does your operating system work?

Fairly well. I do notice some slowdown sometimes, but that's mainly after running for a while. I feel that the overall quality of life increased dramatically when I lowered the clock interval.
